WORK EXPERIENCE

Lead Full stack developer
Binmile Technologies
June 2019 – present (3 year 8 month+)

I have worked as a team leader at Binmile Technologies company. Binmile is a Product Engineering & Custom Software Development Company with offices across the globe. We are an enterprise software engineering company that helps organizations implement their digital journeys at speed.

WHAT I DID:

- Developed code following common security practices and development design patterns
- Wrote 200+ unit tests to verify the functionality of user interfaces, back-end processing, connectivity, and r elational database interactions
- Maintained 8+ systems and applications as Tier 2 support (break-fix and data changes)
- Documented 100% of technical specifications and dependencies of applications
- Participated in the planning and execution of 10+ business continuity/disaster recovery exercises
- Implemented 25+ system and application designs
